## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: there is nothing in the art which teaches the claimed method. There is no reference which anticipates nor renders obvious a method for the screening of a non-recombinant cell line capable under appropriate conditions, of exhibiting an upregulated expression of a PDE4 isoenzyme wherein the cell line is treated with a phorbol ester and then the amount of PdE IV isoenzyme is measured compared to the amount of PdE IV isoenzyme produced when the phorbol ester is not used.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
